Vote and comment to Town Meeting - Favorable Action (5-0)

This article will amend Title I, Article 22, Section 5 by adding to the types of fees credited to the already existing Recycling Fees Revolving Fund. Specifically, it seeks to add cart fees and overflow bags, as well as refine the existing language to encompass all electronics and metal items currently processed at the Reuse and Recycle Center. Further, fees for the pick-up of so-called white goods are proposed for removal as these items are no longer processed by the Town. Following the Town's shift last year to a new trash and recycling vendor, overflow bag fees are now part of the Town's curbside collection program and cart-related fees may be contemplated in the future.

This revolving fund, like other revolving funds, is subject to the setting of an annual expenditure cap that requires approval from Town Meeting each year.

NOTE: the vote language has been corrected to match the Select Board Report. The original description in Column C didn't accurately reflect which words would be changed in the bylaws.
